

THE DIZZY BRAINS

The Dizzy Brains sind eine Garage Rock Band, inspiriert von den Sonics und den Stooges. Ihre Live Show haut einen um und bläst alles weg.

Sie kommen aus Madagaskar, einem der ärmsten und korruptesten Ländern der Welt. Gegründet wurde die Band von zwei Brüdern, die gegen die Ungleichheit singen und kämpfen, gegen den Mangel an Perspektiven und die Einschränkungen der Freiheit im Alltag der Madagassen.

The Dizzy Brains sind regelmäßige Gäste im französischen Fernsehen und tourten bereits in Deutschland, den Niederlanden, Frankreich, Großbritannien, Südkorea usw.

Im Jahr 2019 bringen sie ihr brandneues zweites Album "Tany Razana" nach Europa, wie schon das erste beim französischen Label X-Ray Production erschienen.

REVIEWS

"Try and imagine watching the Stooges at their feral pre fame best complete with a skinny Madagascan hanging from the mic with his shirt stripped off like a youthful Iggy, or try to imagine the garage end of the Dead Kennedys cranked through the superfuzz of Mudhoney and that thrilling rush of early Nirvana and you are in the ballpark with a band who pique your curiosity with their home country but transcend it with their unrelenting power and twitching energy. With each song being a lesson in tension and dynamics The Dizzy Brains could actually be the best garage rock band in the world, they are that good..." - **Louder Than War, Live Review**

"Check it out. It's easy to see why they are a great band to have at any festival, as they bring with them energy, up beat rock songs to have any crowd dancing about. A young rock group from Madagascar The Dizzy Brains is capturing the imagination and attention of the music scene in Europe. The band's unique style is a blend of punk and garage rock and their provocative lyrics tell stories about politics, power and protest in Madagascar. Since their songs challenge authority, the band was shunned from most concert venues and radio stations in Madagascar, but the band developed quite a following underground on social media and outside the country..." - **5shouts.com**

"These kids absolutely rock. They are going to make the fire, I'm sure of it. - **J.-L. Brossard, director Trans-Musicales festival in Rennes**
