

## THE EMPIRE STRIKES

The Finnish rock'n'roll foursome is known for the sweaty, action drenched live shows, and always delivering their absolute best for the crowds.

As the ambassadors of the Finnish denim-rock scene The Empire Strikes have toured in Finland, Sweden, Germany, Italy, Spain and the Baltic countries since 2012.

They've opened for great bands like *Phil Campbell & the Bastard Sons (Motörhead)* and *Marky Ramones Blitzkrieg*, shared stages and made friends with *Märvel*, *Scumbag Millionaire*, *Grande Royale* and *Honeymoon Disease*.

The predecessors of the future full-length album ("1983" – 2015 and "High Tide – 2017) were both critically acclaimed and the reviews of the 1st new single "Blinded by the Light" are somewhat praising.

*The Empire Strikes* is also featured on the *Hellacopters*-tribute LP "Payin' Our Dues" as the only Finnish band. *The Empire Strikes* release their 3rd album in September 2019 via Spanish Ghost Highway Recordings in Europe and Savage Magic Records in the US.
